**336612** – Boat Building

**333998** – All Other Miscellaneous General Purpose Machinery Manufacturing

**5670** – Building Components, Prefabricated

**2040** – Marine Hardware and Hull Items

## COMPANY OVERVIEW

Founded in 1994, Hillside Castings LLC is a premier manufacturer of hand-cast aluminum marine hardware and custom parts. Based in Hatfield, Arkansas, we specialize in high-strength, durable, and weldable components made from premium-grade A356.2 aluminum. Our gravity-poured castings serve a range of industries, from boat manufacturing to dock construction and storm shelter fabrication. Hillside Castings is committed to American-made quality, craftsmanship, and personalized service.

## PAST PERFORMANCE & KEY CLIENTS

- **Avalon & Tahoe Boats** – Designed and manufactured multiple custom molds, becoming a primary supplier of cast aluminum components.
- **SeaArk Boats**
- **Princecraft**
- **Veranda Marine**
- **WarEagle Boats**

## CORE COMPETENCIES

- **Marine Hardware Manufacturing:** Custom production of aluminum boat parts including handles, bow eyes, cleats, augers, and push pole kits.
- **Custom Mold Development:** Design and delivery of specialized molds tailored to customer specifications.
- **Durability & Strength Engineering:** Production of heavy-duty, corrosion-resistant aluminum parts suitable for extreme environments.
- **Flexible Manufacturing:** Ability to quickly produce custom parts in small or large batches to meet unique customer demands.
- **Quality Assurance:** In-house QC managers inspect every component; we also follow up with clients to ensure satisfaction.

## DIFFERENTIATORS

- Use of premium-grade A356.2 aluminum in all products.
- 100% hand-casted process ensuring detail and durability.
- Gravity-poured aluminum into permanent cast iron molds for superior strength and finish.
- Highly flexible production to meet unique or urgent client needs.
- Direct relationships with major boat manufacturers as primary aluminum supplier.
- Strong customer service culture with post-delivery follow-ups.
- Products are American-made and built to perform under harsh marine conditions

## MISSION STATEMENT

Supporting American manufacturing with high-quality, hand-crafted aluminum parts built for performance, strength, and longevity.
